RESOLUTION

WHEREAS. The Board of directors of Elgin School District have been informed that The City of Elgin plans to install water meters to serve the School facilities, and

Whereas, there is no allotment of money in the current school budget to pay for such installation, nor is it definitely known that the rural school board of Union County, or the tax payers of Elgin School District will allow monies subsequently to pay for such installations, and

Whereas, it is generally known by all, that the Elgin School is and has been through hard and trying circumstances through the loss of their facilities by fire, and the heavy taxation necessary to finance the construction of new facilities, and since the Elgin Public Schools are and should be considered a public institution, maintained and operated exclusively by tax payer's money, be it therefore resolved.

The directors of Elgin School District, hereby go on record, as protesting the installation of water meters on the school property, and be it further resolved, that the directors of Elgin School District #23, consider an equitable flat rate on water should be considered, thus relieving all taxpayers of installing several water meters necessary to serve the School facilities due to the several "inlets" of water mains to the School plant.
